

## Exercise 17 (MODULE 14)

Familiarize yourself with some of the important legal and tax considerations in the area(s) you have chosen to invest in. Those might include, but are not limited to whether the law is tenant or landlord-friendly, what are the documentation requirements for buy/sell transactions, whether you are better off buying the property into your individual (or joint) name or via company from a legal perspective and what kind of and how much taxes you will be liable to.
